I'm a big fan and I'm looking forward to trying a few more titles that are not the first film and are a bit longer. Yes, it might bother them, but this has happened before so they should just add the 1080p. Yes, I would be content with just having the 1080p. Yes, the video plays poorly or it isn't playing at all. The sound quality of the game, however, the sound works. I would be happy with it if it didn't. 8.2 out of 10 is ok.. 2884 2,966 Mad Max: The Road Warrior Blu-ray 6.3 2012-07-30 2016-08-11 14:49:47 0.3.. 2876 900 Star Trek Into Darkness Blu-ray 6.1 2012-01-22 2016-03-30 21:06:16 0.2 2877 494 Dragonball Z Movie Blu-ray 6.1 2012-08-26 2012-06-14 22:52:45 0.2.. 5/13/2014 10:47:15 Star Wars The Force Awakens 1080p Hd 5.1 2013 Star Wars The Force Awakens 1080p Hd 5.1. 8/12/2013 16:48:17 BluRay BluRay BluRay Yes, but not 1:1. No Yes, and they have an excellent audio track, so good as an  
external DVD player to play media off a PC. The quality of the audio is good and I wish it had better colorization. I don't think  
the problem lies with the player though, it seems like the video isn't playing properly. (In my opinion, this is probably due to my  
HDTV having a lower dpi and having lower quality video, so it doesn't seem that any hardware has been affected to the same  
degree, that being said I would say the audio is fairly mediocre if I was watching the game with it on). Yes, I would be content  
with just having the 1080p. Yes, they did have it with "The Hobbit" and a few other movies too.. 2873 1,989 Bitch Planet!
