Clan Wars<3. Hi all,

I'm working for Architectural design and visualization stuff. I prepared a lot of stuff (from 3ds max) for google cardboard and Htc Vive, Stereoscopic shots working so great software totally work, smooth and pure. I hope in future we will be able to use for cubic renders too ! (cubic renders much much more accurate rather than stereoscopic renders in my opinion)

And also very nice opportunity for creating own google 360° photo archive, im gonna try..

Cheers. If you want something different from all the rest and something toylike.
This is something you want.

It's basically playing with a toddler that's oddly specific.

And at its core it works like this.

You start with some things to discover that give you more things to discover.. I'm usually not a fan of runners but the aesthetics, trailers and core concept got me hooked, especially the co-op mode. Hope it gets online at one point.

This game is very challenging, I've been playing for quite a few hours and I haven't unlocked much of the content... Feels good to actually feel like you're actually beating the game. It can get really crazy at times, the feeling of speed is great.

Controls are fluid, I found them a little stiff until I found out you could change the sensibility of movements. Actually, there's a nice amount of customizable content, from the ship to the colors used for the force fields, the music played, controls... It really feels like the game is giving you enough tools so that you can face it fairly.

Good addition to my library, would struggle again.. \u7edd\u5bf9\u7684\u7ecf\u5178\u4e4b\u4f5c\u01\u53ef\u5bfc\u5165\u7167\u7247\u66f4\u662f\u4f7f\u5f97\u6e38\u620f\u4e2d\u4e8c\u5316\u01\u5f53\u7136\u7531\u4e8e\u5e74\u4ee3\u9650\u5236\u0c\u0c\u7acb\u7ed8\u4e0d\u592a\u597d\u3002\u4e5f\u6ca1\u6709\u5f15\u5165\u6218\u6cd5\u548c\u891\u51b2\u3002

NO NO NO, not even once!. So I have logged over 40 hours on this game since i bought it a couple weeks ago. Needless to say i thoroughly enjoy this game. I found it while looking for a game similar to Warlords Battlecry 3 and it most certainly delivered and then some. As with any game ive played, i find things i like and things i dont.

Some Pros:

- 4 very unique playable races
- Massive army cap unlike any game ive ever played
- Easy to control
- Straightforward gameplay
- Clever AI

Some Cons:

- Very few skirmish maps
- Playable races are not equal in strength, Undead and Elven are close, Mechanic and Cryo not even close
- Campaign difficulty gets to the point where it is not enjoyable
- Resources are difficult to obtain

All in all ive enjoyed this game and will continue to play it. Im looking forward to finding more games like it yet i havent had any luck so far. I highly recommend this game to anyone who is into Army and Base building RTS games.. totally worth 3\$! definitely recommend it

genuinely enjoyed this one, pretty fun :)

it reminds me a bit of that kinect adventure game where you had to jump and move around to avoid obstacles. and the graphics are nice, it ran totally smooth and looks pretty cool!. Think Stoke market with a verry small amount of god flavor. No choices just eb and flow from what I saw.. Nice character pack for 100% OJ.. this is a good alternative to spine. i can't wait for the spriter 2!
